Welcome to the SFU Students from International Pathways Questionnaire. We invite you to read the following information, so you can learn more about the background and purpose of this project.

SFU’s Sexual Violence Support & Prevention Office (SVSPO) is engaged in a project to identify and reduce potential barriers that some students from International Pathways may face when accessing sexual violence support services and/or engaging in sexual violence educational initiatives. This is a collaborative project with International Services for Students (ISS) and Fraser International College (FIC).

For the purposes of this project, students from International Pathways are those who have arrived in Canada within the last eight years and could include permanent residents, refugees and international students. Students from International Pathways could also include Canadians who may have been previously living outside of Canada, and have now arrived in Canada within the last eight years.

In order to identify potential barriers and to make recommendations that could significantly reduce these barriers for students from International Pathways in accessing support services and in engaging in educational opportunities, the SVSPO is conducting an anonymous questionnaire to gather information. This questionnaire should take no more than 15 minutes to complete. We invite you to answer questions related to your general demographics, experiences in accessing support services, existing knowledge of sexual health and any educational needs. Your response to this questionnaire will be confidential. The SVSPO will report the results of the questionnaire only when grouped with the responses of other participants and as a part of a final report. You will not be identifiable based on your answers to this questionnaire.

After you have completed this questionnaire, you may choose to enter a prize draw to win one of over twenty $25 gift cards for Tim Hortons, Starbucks, SFU Bookstore, Renaissance Coffee or the grand prize, a $50 Amazon gift card! To enter the prize draw, you can share limited personal information in a separate section at the end of this questionnaire. This information will be kept separate and will in no way be connected to responses in the main questionnaire. Participants will only be contacted if they win one of the prizes. Those who win a prize in the draw will be contacted by March 18th, 2019 through the preferred contact method indicated. The SVSPO is grateful for your participation!

This questionnaire is completely voluntary. Due to the topic of this questionnaire, we recognize that it may cause emotional distress or be difficult for some participants to complete. If you feel distressed during any point of your completion of this questionnaire, you may stop your
participation in the questionnaire and submit the questionnaire into the box labeled “Questionnaires”. Should you feel impacted by filling out this questionnaire and find yourself in need of support or assistance, we encourage you to tear off this sheet for your own reference and consider accessing any of the listed resources:
